High brightness and strong coloration, realized with the pure color concept

The pure color concept realized through unique base and dye formulations will expand the range of expressions while caring your hair.

Each hue is set to a saturation that produces extraordinarily vivid color on your hair.

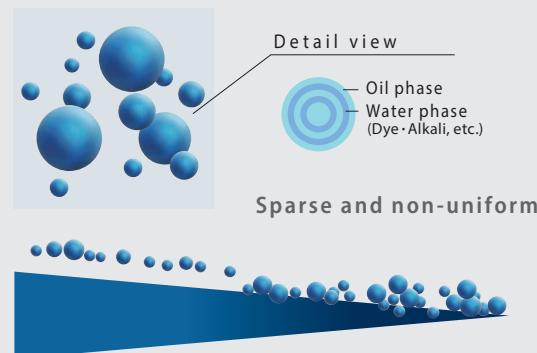

BASE

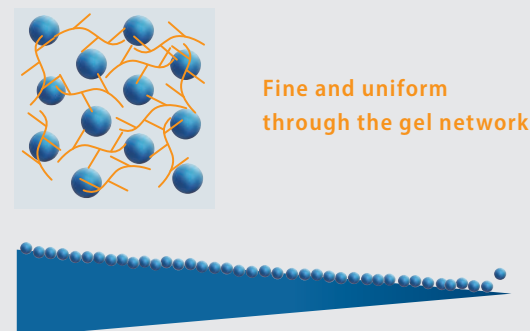

"Gel network formulation" in pursuit of uniform coloring.

With a structure that contains the dye and alkali within a gel network, it realizes a fine, uniform base and enables beautiful and well-defined color expression.

Our conventional product

ASIAN COLOR FES

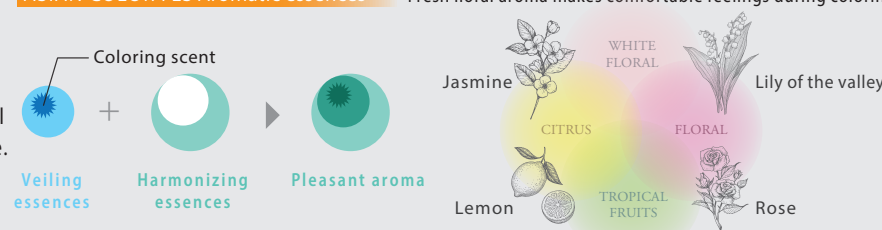

FRAGRANCE

Use the scent of coloring as a part of fragrance to mask it.

Rather than masking the scent of coloring with a strong aroma, we use it as a part of fragrance. This makes the remaining coloring smell hard to detect, with an overall casual aroma that is a point of pride.

ASIAN COLOR FES Aromatic essences

Fresh floral aroma makes comfortable feelings during coloring.

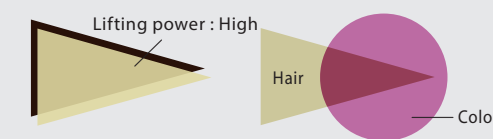

LIFT / LOW LIFT

Vivid coloring not relying on lifting strength

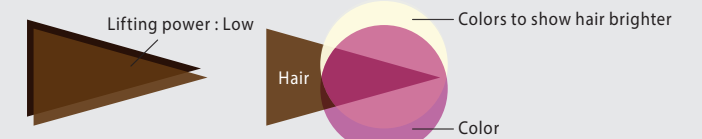

DYE Vivid coloring not relying on lifting strength.

By combining color that enhance brightness, vivid colors are produced without using any more lifting than is necessary.

Our conventional product

※ Color cream : OX (OX 2.8%) =1:1 ※ The combination is the same for LOW LIFT (Low alkaline color) N ... NATURAL

BASIC PROCESS

PURE

Alkaline colors specialized for hair coloring after bleaching

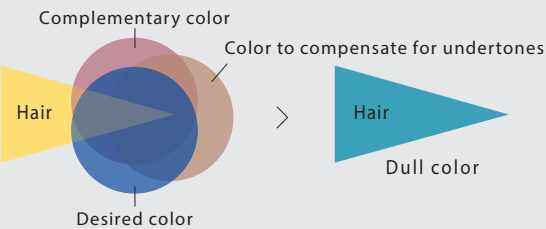

FEATURE

POINT 1 Dye design that does not mix complementary colors **POINT 2** Even coloring even with uneven undertones

POINT 3 Smooth application

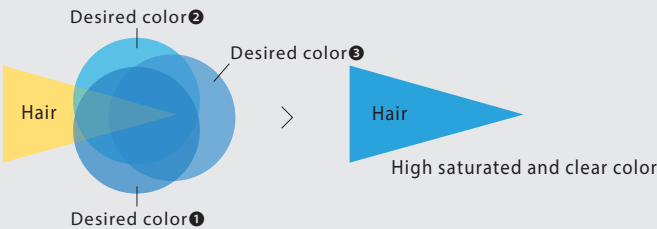

D Y E By composing the desired color with multiple dyes, both saturation and evenness can be achieved.

Alkaline color for non-bleach hair ※Our conventional product

When alkaline colors for non-bleach hair are used on high-toned hair, the complementary colors and colors that compensate for undertones contained in the product tend to reduce the saturation and make the hair look dull.

PURE

FINISHED IMAGE

	MINT	CYAN	VIOLET	PURPLE	PINK	APRICOT	G.BEIGE	BEIGE	W.BEIGE
P13									
P9									
P4									

※Color samples are on 18LV

BASIC PROCESS

※1 Use BLEACH120

CONTROL SERIES

Adjustment colors to expand the range of expressions

By adjusting the saturation, you can change not only the color but also the appearance and overall look to your desired effect.

conc.
Saturation adjustment with high saturated color tone.

COMBINED EXAMPLE

CLEAR ASH / CLEAR PINK / CLEAR SILVER
CLEAR BEIGE / CLEAR APRICOT

Adjust the appearance texture with pale tones. Can be used in the same way as the CLEAR.

COMBINED EXAMPLE

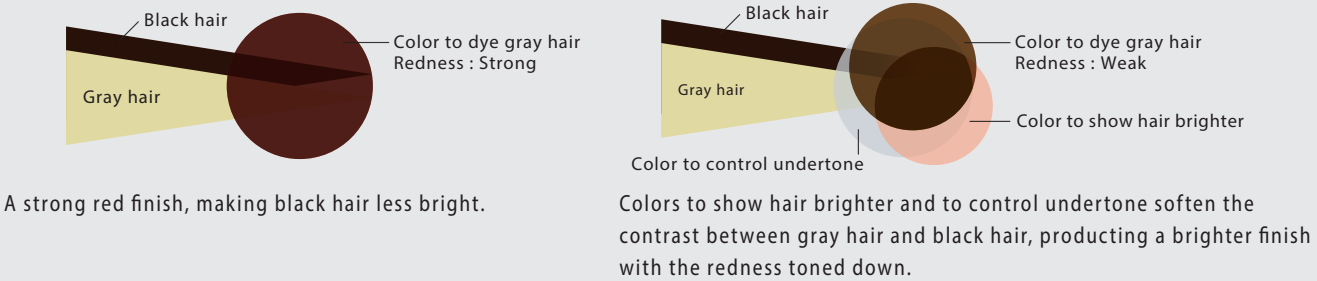

BOOSTER SERIES

Warm B.B colors to dye gray hair in bright tones

The unique base and dye formulation harmonize the contrast between black hair and gray hair, and dye gray hair in bright tones like fashionable colors.

Our conventional product AISAN COLOR FES

A strong red finish, making black hair less bright.

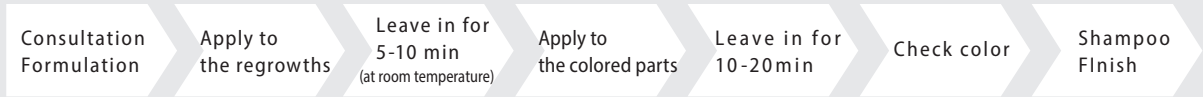

Colors to show hair brighter and to control undertone soften the contrast between gray hair and black hair, producing a brighter finish with the redness toned down.

TONE DOWN CHART

		Current level				
LEVEL		7	8	9	10	11
9					9 B.B : CLEAR (3:1)	
8				9 B.B		
7			8 B.B			
6		7 B.B				

※When using B.B alone.

BASIC PROCESS

※ Illustrations are for illustrative purposes only.

VIVID+

“High-saturation and high-concentration”, foam-type basic liquid color

FEATURE

- POINT 1** Dense foam that reduces stress on the hair **POINT 2** Formulation design with higher dye concentration
- POINT 3** Excellent compatibility with alkalis

BASE

Bouncy foam for easy and even application to hair.

Unique base formulation that allows for high concentration of basic dyes.

Hair cross-section

During the process of applying foam to hair, it becomes bouncier, and it can be enveloped the hair without losing its elasticity.

Surfactant

Basic dye

COLOR SHAMPOO※

VIVID+ ※Our conventional product

GREEN BLUE PURPLE PINK RED ORANGE YELLOW CLEAR

DYE Formulated only with basic dyes that are highly compatible with alkalis.

The simple dye composition produces high saturated colors with no dullness.

FINISHED IMAGE

	GREEN	BLUE	PURPLE	PINK	RED	ORANGE	YELLOW	CLEAR
								

※Color samples are on 18LV.

BASIC PROCESS

※1 Use BLEACH120
※2 Shampoo if you are concerned about scalp staining.

COLOR SHAMPOO

Color shampoo that maintains the beautiful color changes in hair coloring after bleaching

FEATURE

- POINT 1** Pale shades correct and even out hair color after bleaching
- POINT 2** Even bleached hair is tangle-free and feels smooth after washing
- POINT 3** Formulated with hair repair ingredient “Betain”

FINISHED IMAGE

PURPLE

Before[18LV] After 3 times use

PINK

Before[18LV] After 3 times use

※The color gradually deeper with each use.
※AFTER is an illustrative photo when used color shampoo for 3 consecutive days. Finish may vary depending on hair color or hair condition before use.

BASIC PROCESS

- Before using ASIAN COLOR FES...
Thoroughly read instruction manual before using products.
※Perform an allergy patch test every time you use the products.
※Never use on anyone who has had an allergic reaction to a color product in the past.
※Always wear gloves when handling products, such as during application and when rinsing.
- Performing a strand test to test color
Take 2-3 strands of hair at the back of head, underneath the surface, where the overall design will not be affected. Apply color within a piece of foil, and leave 15 minutes. Wipe and check color and use result to determine formula.
