※The color may show differently from actual color by printing.

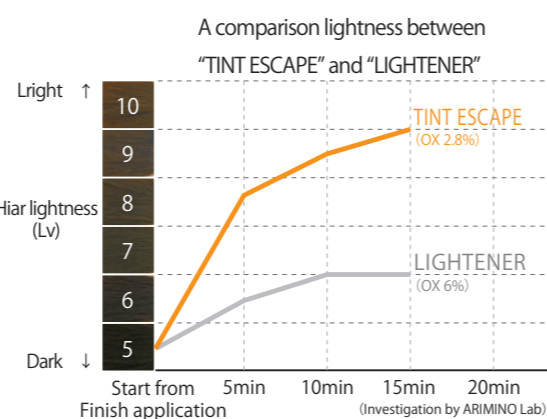

TECHNICAL PROCESS

QUESTION & ANSWER

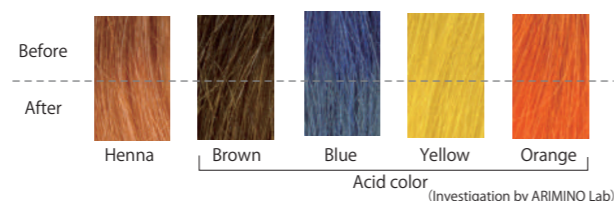

Q1 What is the difference between "LIGHTENER" and "TINT ESCAPE"?

A "LIGHTENER" does not have remove dyes effect from hair. "PERSULFATE" decomposes dyes. "POWDER BLEACH" and "TINT ESCAPE" include "PERSULFATE", but LIGHTENER doesn't.

Q2 Does "TINT ESCAPE" remove the dye of henna and acid color

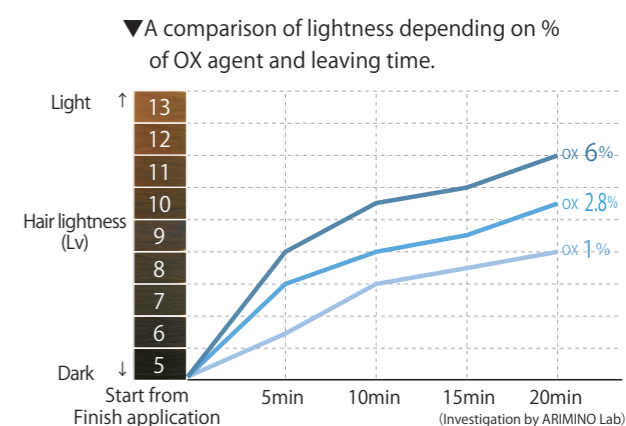

A Unfortunately, no.

Q3 How to control dye removing power for hair.

A

- To make removing power stronger = OX 6%
- To make removing power softer = OX 1%
- Maximum leaving time is about 20min.

Q4 Any caution if using for heat-treated hair?

A

- When using "TINT ESCAPE" for heat-treated hair, the power may act stronger.
- Recommend to check 5 minutes earlier than usual.

BLEACH 120

An incredible bleaching power, creamy operability achieves even application.

Hair Bleaching Agent/ 500g / including PERSULFATE

<Basic mixing ratio> 1st agent : 2nd agent = 1 : 2
