OIL & MIST

SPRINAGE has its origin in the concept of skin care that can be used for both skin and hair.

Combining luxurious beauty components which would normally be used only for skin care, we pursued a sense of satisfaction in fragrance, comfort, and finish.

For simple and luxurious care not bound by time.

Bring a new sense of satisfaction to your regular styling routine.

For a not-so-good morning, a so-so morning, or a just-okay morning, and for all these mornings when your hair and make-up fall just short of what you want, use SPRINAGE new after-bath items for your styling routine.

SPRINAGE combines luxurious beauty components which would normally be used only for face care, it has its origin in the concept of skin care that can be used for skin and hair.

Oil to provide a firm hold, without feeling heavy.

Mist to give your hair lightness and volume without being dry and brittle.

In busy mornings, you can style your hair perfectly and your hair will feel great all day.

GENTLE NUANCE OIL

GENTLE NUANCE OIL

Unruly or dry hair into glossy, smooth hair with no stickiness.

The oil uses generous quantities of the **Skin and Hair components** contained in all SPRINGAGE products and the compound ingredient (Wet smooth oil) that only an oil can offer.

A soft moistness and silky lightness, the oil gives the hair a texture that has both these seemingly contradictory elements to offer a wide range of styling options depending on the quantity used.

Compound ingredient

Wet smooth oil

An oil that combines rose hip and discaprylyl carbonate, an ingredient used in many premium skin care oils, in a proprietary golden ratio. It gives the hair a texture that has both of the seemingly contradictory elements of a soft moistness and silky lightness. The oil was created in a quest for a light hair texture with retained moisture.

HOW TO

STEP
1

Dry your hair well with a blow dryer.

STEP
2

Place a suitable amount in the palm of your hand and spread it onto the entire hands from fingers to palms.

STEP
3

Focusing on hair ends, comb your fingers through the hair to smooth the oil well into the hair.

POINT 1 Do this several times with a single pump applied each time to spread the oil evenly through the hair.

POINT 2 For curled hair, it is recommended that you apply the oil after curling your hair with your curling iron.

<Recommended quantity : Short hair 1-2 pumps/Medium length hair 3-4 pumps/Long hair 4-5 pumps>

PUFF REFRESHING MIST

PUFF REFRESHING MIST

Turn fine, limp hair into light, airy hair with having the hair body from roots, while caring for your scalp.

With the **Skin and Hair components** used in all SPRINAGE products as a base, the mist contains scalp care ingredients such as swertia extract. Moreover, the **Bound Hold formula** produces a good feeling of volume, reducing roughness and creating a highly satisfactory airy finish.

Alum (Sulfuric acid (Al/K)) × **Bound Hold formula**

Alum tightens the scalp, while trehalose penetrates into the hair to act as a moisturizing agent, giving tenseness and stiffness to every single hair. These ingredients also produce a moisture veil for sleek looking hair.

Scalp care ingredients good for women

Moisturizing care for the scalp while styling.

Swertia extract
Moisturizing
Moisturize while caring for the scalp.

Alum (Sulfuric acid (Al/K))
Astringent
Tighten the scalp and reduce the smells from sebums, etc.

HOW TO

STEP
1

Towel-dry hair, like gently massaging, to wipe away moisture at the roots.

STEP
2

Spray a suitable amount onto the scalp in the areas you want to add volume to your hair.

STEP
3

Use your blow dryer against the hair's flow, softly lifting up the hair as you dry.

POINT 1

Divide the hair into several parts and spray the mist onto the parts so it is applied directly to the scalp. This will make it easier to smooth into the hair.

POINT 2

For those who want more volume, spray onto the top and side of head and the bangs. For short hair, apply evenly across the whole head and smooth into the scalp with your fingers.

<Recommended quantity : 2 pumps per part × 4 - 5 parts(8 -10 pumps in total)>
